

Better ergonomics, better reliability, better cleaning

The BR855 has key features including an extremely low sound level, making around the clock cleaning possible in sensitive areas, outstanding traction for efficient double scrubbing tasks, and excellent drying efficiency. The Ecoflex system keeps the consumption levels in control, but it also opens the possibility to boost temporarily water, detergent and brush pressure for more aggressive cleaning.

- Optional Ecoflex™ prepared: green, flexible, nice and easy
- User friendly, waterproof OneTouch™ control panel and easy to operate
- High manoeuvrability allows cleaning in congested areas
- Adjustable scrubbing pressure ensures a wide range of cleaning applications from daily scrubbing to restoration
- Integrated vacuum motor with low noise level for daytime cleaning applications
- Operator's easy access from left and right side
- Large battery compartment enables a 400Ah battery tray for more than 4.5 hours running time
- Eligible for 3 year warranty (conditions apply)
